

## Pharmacy Benefit Management Can Save Florida an Additional \$2.0 Billion in State Medicaid Spending

- ▶ Pharmacy Benefit Managers (PBMs) saved Florida \$83 million in state Medicaid spending in 2016.
- ▶ These savings represent only a portion of the potential savings achievable if Florida were to fully utilize PBM tools and capabilities.
- ▶ The optimal use of PBM tools and capabilities for all of Florida’s Medicaid prescriptions would reduce drug spending 25% per beneficiary.
- ▶ As a result, Florida would save \$152 million in state Medicaid spending in 2019 and \$2.0 billion over 10 years (2019-2028).

### Florida’s Medicaid Savings through Pharmacy Benefit Management

<b>Savings Already Realized</b>	<b>\$83 Million</b> 2016	<b>\$262 Million</b> 2011-2016
<b>Savings Opportunity</b>	<b>\$152 Million</b> 2019	<b>\$2.0 Billion</b> 2019-2028

With Medicaid prescription drug spending increasing in recent years – driven both by higher prices and increased volume – states are increasingly turning to PBMs to manage drug benefits for Medicaid populations, including beneficiaries with health plan coverage and those in fee-for-service. Through their expertise, data analytics capabilities, and negotiating capacities, PBMs improve quality, safety, and appropriate drug use, achieving the highest value for states and the consumers they cover. Specific PBM tools and capabilities include:

- ▶ Driving use of the highest therapeutic quality, lowest-cost drugs and shifting utilization from brands to generics as clinically appropriate;
- ▶ Developing preferred pharmacy networks;
- ▶ Advancing evidence-based, clinically effective utilization; and
- ▶ Leveraging data analytics to detect and prevent fraud, waste, and abuse.
