

#### Letter from the Chairman

Our workforce of more than 172,000 employees is dedicated to helping people live healthier lives and helping to make the health system work better for everyone. As Federal and State policy-makers continue to see the health care needs of their communities evolve, UnitedHealth Group remains an active participant in the political process to provide solutions that enhance the health system. The United for Health PAC continues to be an important component of our overall strategy to engage with elected officials and policy-makers; to communicate our perspectives on various priority issues; and to share with them our capabilities, expertise, and innovation skills.

The United for Health PAC is a nonpartisan political action committee supported by voluntary contributions from eligible employees. The PAC supports Federal and State candidates who champion policies that increase quality, access, and affordability in health care, in accordance with applicable election laws and as overseen by the UnitedHealth Group Board of Directors' Public Policy Strategies and Responsibility Committee.

As key issues of importance to the health system are debated and health needs evolve, UnitedHealth Group remains committed to sharing the insights and technologies we have developed to improve the nation's overall health and well-being.

Peter Jacoby

Pite to Jacon

United for Health PAC Chairman

Senior Vice President and Head of Government Affairs

#### **Political Contributions and Related Activity**

UnitedHealth Group's mission is to help people live healthier lives and to help the health care system work better for everyone.

UnitedHealth Group engages in efforts to shape and inform public policy decisions that have the potential to impact the quality and delivery of health care that affect our customers, employees, consumers, and the communities in which we operate. We have a corporate responsibility to our customers, our employees, our shareholders, and the people we serve across the health care community to continue to:

- Foster innovative solutions that produce consistent, high-quality health care at a lower cost and modernize the health care system;
- Promote policies that address the underlying cost drivers in order to put our health care system on a path towards sustainability; and
- Ensure that all Americans have access to quality, affordable health care coverage.

#### **Advocacy Activities**

#### Policies, Practices, and Priorities

UnitedHealth Group engages in activities to advocate for our positions on public policy issues with elected officials and other stakeholders at the International, Federal, State, and local levels – issues that affect our company, shareholders, employees, and customers. Our goal is to help shape and inform public policy decisions that have the potential to affect our business, customers, employees, consumers, and the communities in which we operate and accomplish our mission of helping people live healthier lives. Our advocacy and legislative priorities at the federal and state levels are set forth in our "Roadmap for Transforming America's Health Care System" and "Playbook for States Seeking to Modernize Their Health Care Systems," which contain detailed information about our positions on health care reform and other public policy issues and are available on our website. Our lobbying and disclosure reports filed with the U.S. Congress are available at <a href="http://disclosures.house.gov/ld/ldsearch.aspx">http://disclosures.house.gov/ld/ldsearch.aspx</a>.

#### **Procedures and Board and Management Oversight**

Advocacy efforts are led by Government Affairs with participation throughout our businesses, and are subject to oversight by senior UHG management and the Public Policy Strategies and Responsibility Committee of our Board of Directors. In addition to overseeing our advocacy efforts, the Public Policy Strategies and Responsibility Committee assists the Board of Directors in fulfilling its responsibilities relating to our public policy, health care reform and modernization activities, political contributions, government affairs, community and charitable activities, third party activities (including trade associations and industry groups), and corporate social responsibility, and is responsible for overseeing the risks associated with these activities. The Committee receives regular reports from our leadership on these matters, oversees our policies, and reviews the purposes and benefits of these activities at each meeting. The Committee provides reports of its activities to our Board of Directors at each in-person meeting.

Our activities include the work of educational outreach and promotion, campaign contributions, and, in certain instances, lobbying and other related activities. These activities are reviewed by legal counsel in addition to the Public Policy Strategies and Responsibility Committee and are included in the total annual fiscal budget, which is subject to the approval and oversight of our Board of Directors. The Public Policy Strategies and Responsibility Committee adopted a political contributions policy which we have made available on our website at <a href="https://www.unitedhealthgroup.com/About/CorporateGovernance.aspx">www.unitedhealthgroup.com/About/CorporateGovernance.aspx</a>. The political contributions policy summarizes the policies and procedures that we follow with respect to political contributions.

#### **Non-Deductible Trade Association Dues**

Upon the request of UnitedHealth Group, certain trade associations to which UnitedHealth Group has contributed more than \$50,000.00 in dues have reported that, from January to December 2014, \$40,000.00 of the aggregate dues paid by UnitedHealth Group to those trade associations was used for contributions and expenditures that are not deductible under Section 162(e) of the Internal Revenue Code.
