

U.S. Political Contributions and Related Activity Report

January 1 – June 30, 2023

Political Contributions and Related Activity

Overview

UnitedHealth Group engages in efforts to inform public policy decisions to ensure all people have access to high-quality, affordable health care and to build an improved, simplified experience for patients and providers. Our efforts include developing public policy solutions, educational outreach, trade association memberships, lobbying, and making bipartisan political contributions – including through the Company’s political action committee, the UnitedHealth Group PAC.

Board Oversight

The Governance Committee of the Board of Directors has oversight of political contributions and public policy activities. The Governance Committee’s responsibilities include:

- Reviewing and recommending to the Board any changes to the Company’s [Political Contributions Policy](#) periodically.
- Reviewing at least semi-annually political contributions made by the Company and its political action committees and approving the public disclosure of such contributions.
- Monitoring the Company’s advocacy and lobbying processes and activities, including key trade association and coalition memberships.
- Overseeing the manner in which the Company conducts its public policy and government relations activities.
- Overseeing the Company’s external relations functions and activities.

The Governance Committee receives regular reports from Company leadership on these matters, oversees our policies, and reviews the purposes of these activities at each meeting.

Public Policy Priorities

UnitedHealth Group’s approach to political contributions and advocacy broadly is grounded in our public policy priorities. We publicly describe our core public policy priorities – **expanding access to care, improving health care affordability, and enhancing the health care experience** – and outline actionable and timely solutions to achieve these priorities in UnitedHealth Group’s [A Path Forward](#). We also detail additional actions and commitments to help build a modern, high-performing health system and achieve our mission in our [Sustainability Report](#).

Political Contributions and Related Activity Overview

Political Contributions

The UnitedHealth Group PAC is funded by voluntary, personal contributions from eligible employees and individuals. The PAC makes contributions to federal and state candidates and political committees on a bipartisan basis. All PAC contributions are disclosed regularly to the Federal Election Commission (FEC) and appropriate state agencies.

Federal election law prohibits using corporate treasury funds to contribute to federal candidates or political parties. Corporate contributions are made in some states, where permissible and in accordance with state election laws. In addition to filing regular disclosure reports with the FEC and applicable state agencies, we also disclose political contributions via semi-annual reports on our website, in accordance with our Political Contributions Policy.

Political contributions are made on a bipartisan basis and several factors are considered when contributing, including a candidate's role in advancing health care policy priorities that impact the people we serve and our Company. We have a robust internal review process in place to evaluate every political contribution, which includes review by our External Affairs department and legal counsel.

Our bipartisan political giving comes with the understanding that we may not agree with every position taken by each recipient of political contributions from the Company on the many issues considered by policymakers and candidates for public office. This Report provides retrospective information for the applicable period. Past support of a candidate or committee cannot be assumed to mean that the Company or its PACs are providing similar support today.

UnitedHealth Group PAC Contributions

Federal Contributions

U.S. Senate Candidates

John Barrasso (R-WY)	\$2,500
Robert Casey (D-PA)	\$2,500
