	<b>Quarterly Financial Performance</b>		
	<b><u>Three Months Ended</u></b>		
	<b>September 30,</b> <b><u>2017</u></b>	<b>September 30,</b> <b><u>2016</u></b>	<b>June 30,</b> <b><u>2017</u></b>
Revenues	\$50.3 billion	\$46.3 billion	\$50.1 billion
Earnings From Operations	\$4.1 billion	\$3.6 billion	\$3.7 billion
Net Margin	4.9%	4.3%	4.6%

- UnitedHealth Group's third quarter 2017 revenues of \$50.3 billion grew 8.7 percent or \$4 billion year-over-year. UnitedHealthcare's ACA Individual market withdrawals, combined with the ACA health insurance tax deferral, reduced consolidated revenues by approximately \$1.6 billion year-over-year, lowering the consolidated revenue growth rate by 4 percentage points. These factors affect comparability of 2017 results with prior periods throughout the financial statements.
- Third quarter 2017 earnings from operations grew 14.2 percent year-over-year to \$4.1 billion. Net earnings per share grew 24 percent to \$2.51 per share from \$2.03 per share and adjusted net earnings grew 23 percent to \$2.66 per share from \$2.17 per share in the third quarter of 2016.
- Cash flows from operations of \$7.5 billion in third quarter 2017 were 2.9 times net earnings.
- The third quarter 2017 consolidated medical care ratio of 81.4 percent increased 110 basis points year-over-year, as a 140 basis point increase from the health insurance tax deferral was partially offset by higher levels of favorable reserve development. Medical reserves developed favorably by \$310 million in third quarter 2017, compared to \$120 million in development in third quarter 2016.
- The third quarter 2017 operating cost ratio of 14.7 percent declined 50 basis points year-over-year, as business mix partially offset a 90 basis point decrease from the health insurance tax deferral.
- The third quarter 2017 income tax rate declined to 32.5 percent, primarily due to the 2017 moratorium on the nondeductible health insurance tax.
- Third quarter 2017 days claims payable of 51 days increased one day sequentially and decreased one day year-over-year. Third quarter days sales outstanding increased one day year-over-year to 16 days and improved sequentially by three days, driven by third quarter cash collections.
- Annualized return on shareholders' equity increased 120 basis points year-over-year to 22.5 percent in the third quarter, while the debt to total capital ratio decreased to 38.2 percent at September 30, 2017.
- Dividends paid to shareholders in the third quarter grew 22 percent year-over-year to \$726 million, reflecting the 20 percent increase in the annual dividend payment rate to \$3.00 per share in June 2017. At September 30, 2017, the Company had repurchased 7.1 million shares year-to-date for \$1.17 billion, including 660,000 shares in the third quarter.

UnitedHealthcare provides global health care benefits, serving individuals and employers, Medicare and Medicaid beneficiaries and the nation’s military, retirees and their families.

	<b>Quarterly Financial Performance</b>		
	<b><u>Three Months Ended</u></b>		
	<b>September 30,</b>	<b>September 30,</b>	<b>June 30,</b>
	<b><u>2017</u></b>	<b><u>2016</u></b>	<b><u>2017</u></b>
Revenues	\$40.7 billion	\$37.2 billion	\$40.8 billion
Earnings From Operations	\$2.4 billion	\$2.1 billion	\$2.2 billion
Operating Margin	5.9%	5.7%	5.4%

- UnitedHealthcare’s third quarter 2017 revenues of \$40.7 billion grew \$3.6 billion or 9.6 percent year-over-year, as UnitedHealthcare grew to serve 1.9 million more people across its employer-sponsored, Medicare, Medicaid and international medical benefit offerings. Third quarter 2017 earnings from operations for UnitedHealthcare of \$2.4 billion increased \$278 million or 13.2 percent from 2016, driven by strong, diversified revenue growth and improved operating margins.
  - UnitedHealthcare Employer & Individual third quarter 2017 revenues of \$13.1 billion decreased \$197 million year-over-year due to the effects of previously disclosed ACA Individual market withdrawals and health insurance tax deferral. These factors offset revenue increases from strong year-over-year growth of 540,000 people in commercial risk-based group benefit offerings and rate increases commensurate with medical cost trends. In the third quarter, commercial risk-based group business grew by 40,000 people, while fee-based programs decreased by 500,000 people due to non-renewal of one public sector customer.
  - UnitedHealthcare Medicare & Retirement grew revenues by \$2.4 billion or 17.1 percent year-over-year to \$16.3 billion in third quarter 2017. UnitedHealthcare served 8.8 million seniors with medical benefit products at quarter end, growth of 960,000 people or 12.2 percent year-over-year. In the third quarter of 2017, the business served 105,000 more seniors, with growth balanced between Medicare Advantage and Medicare Supplement products.
  - In the third quarter of 2017, UnitedHealthcare Community & State revenues of \$9.4 billion grew \$1.1 billion or 12.8 percent year-over-year, reflecting strong membership growth and service to an increasing mix of individuals with greater health care needs. Community & State served 585,000 more people year-over-year, an increase of 10.1 percent, with stable sequential membership in the third quarter.

## Reconciliation of Non-GAAP Financial Measures

- Adjusted Net Earnings per Share
- Adjusted Cash Flows from Operations

### Use of Non-GAAP Financial Measures

Adjusted net earnings per share and adjusted cash flows from operations are non-GAAP financial measures. Non-GAAP financial measures should be considered in addition to, but not as a substitute for, or superior to, financial measures prepared in accordance with GAAP. Management believes that the use of adjusted net earnings per share provides investors and management useful information about the earnings impact of acquisition-related intangible asset amortization.

Management believes that the use of adjusted cash flows from operations provides investors and management with useful information to compare our cash flows from operations for the current period to that of other periods, when the Company does not receive its monthly payment from the Centers for Medicare and Medicaid Services (CMS) in the applicable quarter. CMS generally remits their monthly payments on the first calendar day of the applicable month. However, if the first calendar day of the month falls on a weekend or a holiday, CMS has typically paid the Company on the last business day of the preceding calendar month. As such, quarterly operating cash flows determined in accordance with GAAP may occasionally include CMS premium payments for two months or four months. Adjusted cash flows from operating activities presents operating cash flows assuming all CMS payments were received on the first calendar day of the applicable month.
