

Arizona Medicare Advantage Beneficiaries Receive Better Value and Spend 42% Less than Beneficiaries in Medicare FFS

43% (587,409) of Medicare beneficiaries in Arizona were enrolled in Medicare Advantage (MA) in 2020.

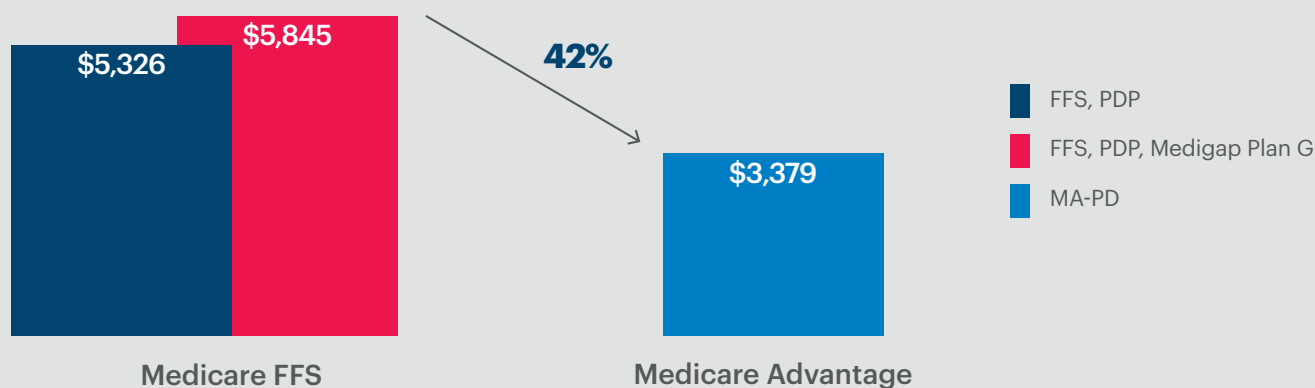

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in Arizona spends:

\$1,947 Less than a beneficiary in Arizona who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$2,466 Less than a beneficiary in Arizona who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in Arizona, 2020

Within All Age Groups, Arizona's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$1,712 to \$2,312 Less
than a **65-year old** FFS
beneficiary in average health

\$2,337 to \$2,563 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in Arizona receives \$152 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
