

Maine Medicare Advantage Beneficiaries Receive Better Value and Spend 46% Less than Beneficiaries in Medicare FFS

44% (153,305) of Medicare beneficiaries in Maine were enrolled in Medicare Advantage (MA) in 2020.

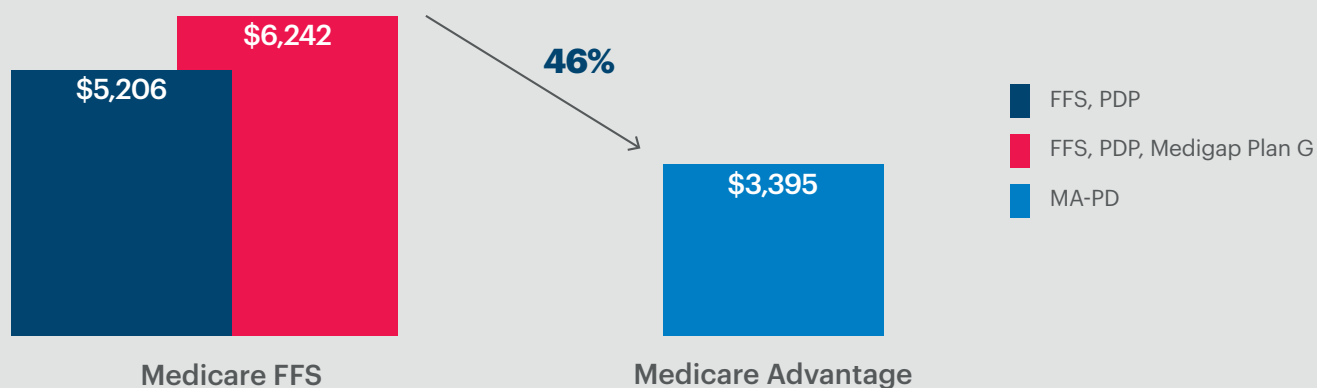

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in Maine spends:

\$1,811 Less than a beneficiary in Maine who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$2,847 Less than a beneficiary in Maine who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in Maine, 2020

Within All Age Groups, Maine's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$1,582 to \$2,983 Less
than a **65-year old** FFS
beneficiary in average health

\$2,284 to \$2,530 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in Maine receives \$141 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
