

Minnesota Medicare Advantage Beneficiaries Receive Better Value and Spend 28% Less than Beneficiaries in Medicare FFS

49% (516,498) of Medicare beneficiaries in Minnesota were enrolled in Medicare Advantage (MA) in 2020.

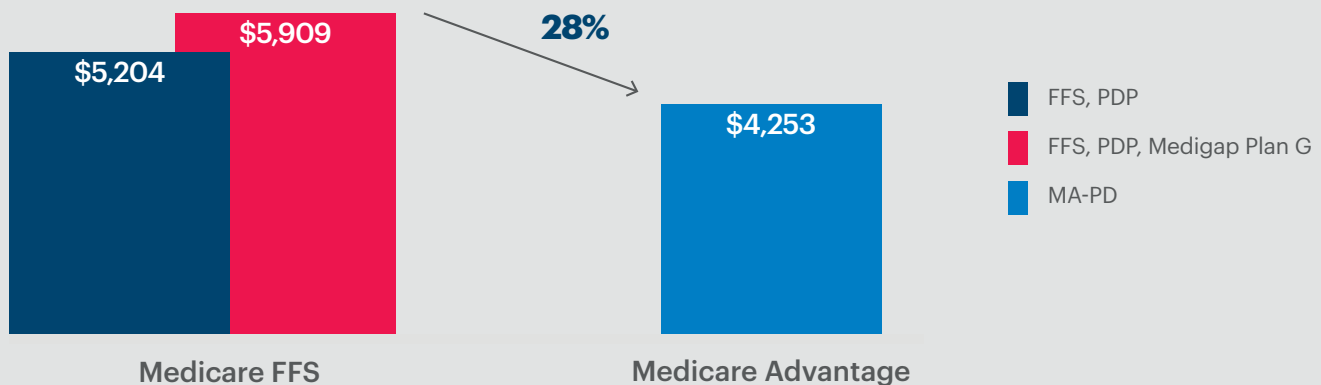

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in Minnesota spends:

\$951 Less than a beneficiary in Minnesota who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$1,656 Less than a beneficiary in Minnesota who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in Minnesota, 2020

Within All Age Groups, Minnesota's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$653 to \$1,812 Less
than a **65-year old** FFS
beneficiary in average health

\$1,411 to \$1,415 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in Minnesota receives \$138 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
