

Montana Medicare Advantage Beneficiaries Receive Better Value and Spend 26% Less than Beneficiaries in Medicare FFS

20% (48,728) of Medicare beneficiaries in Montana were enrolled in Medicare Advantage (MA) in 2020.

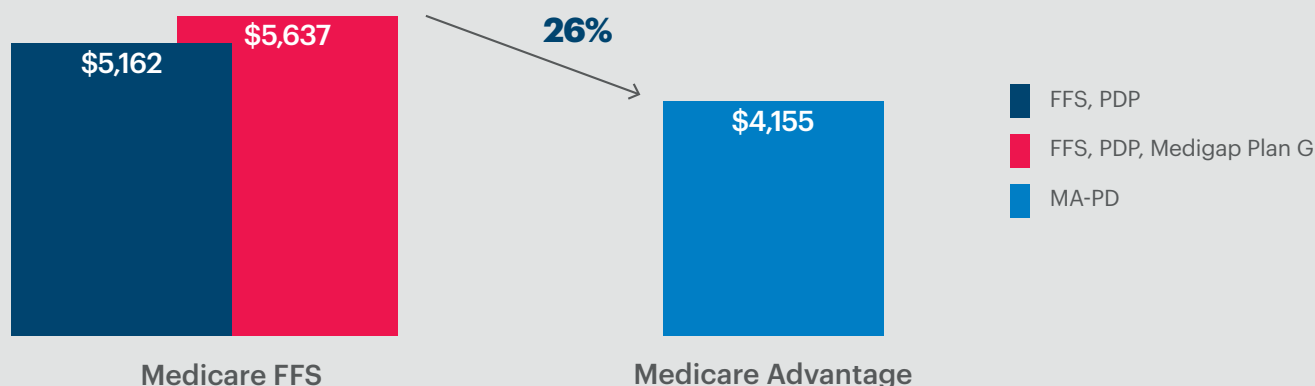

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in Montana spends:

\$1,007 Less than a beneficiary in Montana who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$1,482 Less than a beneficiary in Montana who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in Montana, 2020

Within All Age Groups, Montana's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$804 to \$1,344 Less
than a **65-year old** FFS
beneficiary in average health

\$1,366 to \$1,835 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in Montana receives \$138 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
