

North Dakota Medicare Advantage Beneficiaries Receive Better Value and Spend 28% Less than Beneficiaries in Medicare FFS

20% (26,976) of Medicare beneficiaries in North Dakota were enrolled in Medicare Advantage (MA) in 2020.

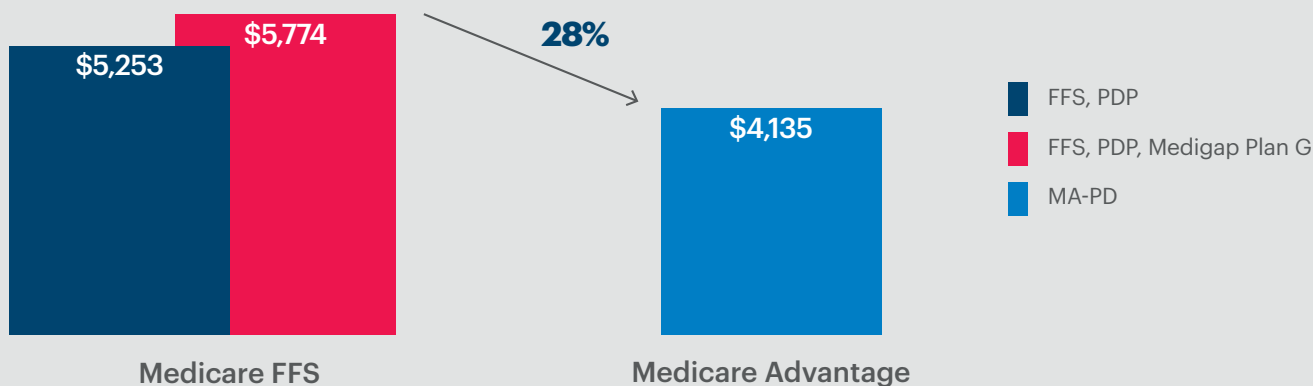

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in North Dakota spends:

\$1,118 Less than a beneficiary in North Dakota who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$1,639 Less than a beneficiary in North Dakota who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in North Dakota, 2020

Within All Age Groups, North Dakota's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$899 to \$1,446 Less
than a **65-year old** FFS
beneficiary in average health

\$1,492 to \$2,018 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in North Dakota receives \$148 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
