

New Hampshire Medicare Advantage Beneficiaries Receive Better Value and Spend 36% Less than Beneficiaries in Medicare FFS

22% (68,665) of Medicare beneficiaries in New Hampshire were enrolled in Medicare Advantage (MA) in 2020.

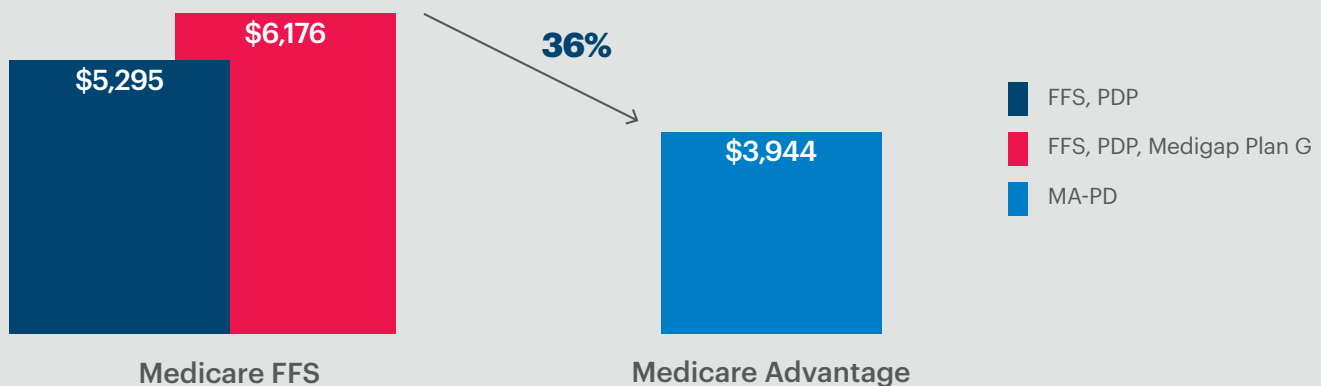

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in New Hampshire spends:

\$1,351 Less than a beneficiary in New Hampshire who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$2,233 Less than a beneficiary in New Hampshire who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in New Hampshire, 2020

Within All Age Groups, New Hampshire's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$1,144 to \$2,048 Less
than a **65-year old** FFS
beneficiary in average health

\$1,809 to \$2,884 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in New Hampshire receives \$136 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
