

Virginia Medicare Advantage Beneficiaries Receive Better Value and Spend 34% Less than Beneficiaries in Medicare FFS

26% (398,257) of Medicare beneficiaries in Virginia were enrolled in Medicare Advantage (MA) in 2020.

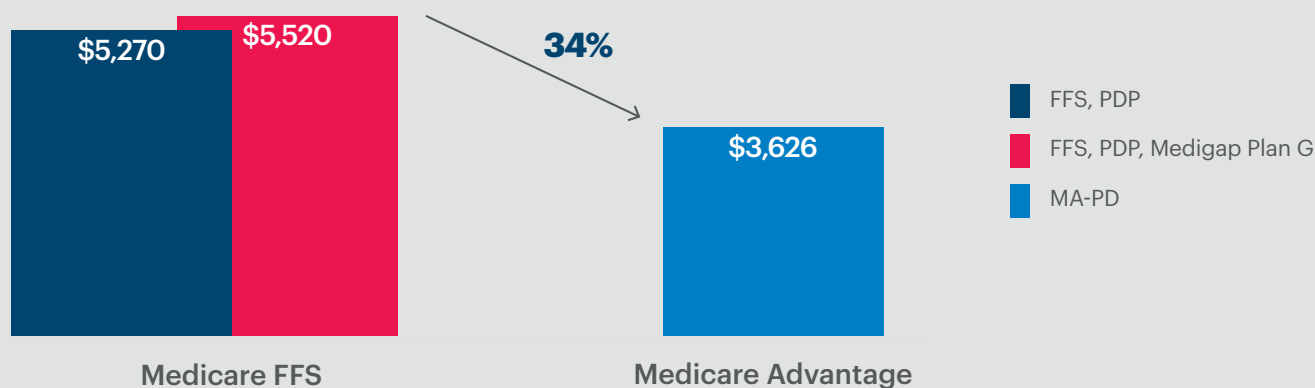

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in Virginia spends:

\$1,644 Less than a beneficiary in Virginia who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$1,894 Less than a beneficiary in Virginia who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in Virginia, 2020

Within All Age Groups, Virginia's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$1,414 to \$1,700 Less
than a **65-year old** FFS
beneficiary in average health

\$2,029 to \$2,076 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in Virginia receives \$177 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
