

Vermont Medicare Advantage Beneficiaries Receive Better Value and Spend 37% Less than Beneficiaries in Medicare FFS

15% (22,233) of Medicare beneficiaries in Vermont were enrolled in Medicare Advantage (MA) in 2020.

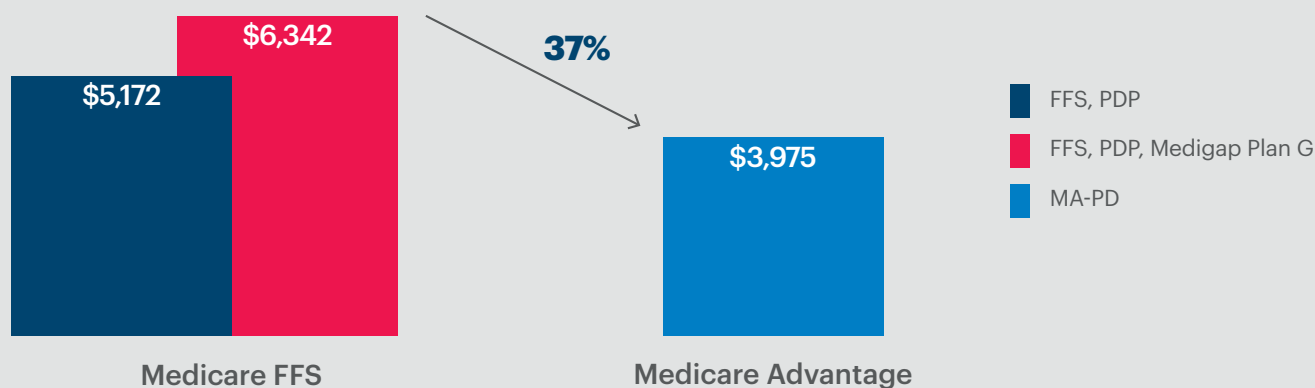

The average Medicare Advantage and Prescription Drug (MA-PD) plan beneficiary in Vermont spends:

\$1,197 Less than a beneficiary in Vermont who enrolls in traditional **Medicare Fee-For-Service (FFS) and a prescription drug plan (PDP)**

\$2,367 Less than a beneficiary in Vermont who also purchases **Medigap Plan G as supplemental coverage for medical out-of-pocket costs**

Annual Health Care Spending by Comparable Medicare Beneficiaries in Vermont, 2020

Within All Age Groups, Vermont's Beneficiaries in MA-PD Spend Less than those in Medicare FFS

\$1,062 to \$2,621 Less
than a **65-year old** FFS
beneficiary in average health

\$1,415 to \$1,843 Less
than an **85-year old** FFS
beneficiary in average health

In addition to the dental, vision, and hearing benefits typically offered, **the average MA-PD beneficiary in Vermont receives \$73 in annual supplemental benefits**, such as care coordination, meals and non-emergency transportation, not offered by Medicare FFS.
