

Launch your accounting career with a Fortune 5 company.

At UnitedHealth Group, we will empower you to use your skills in accounting to make health care more accessible and affordable for everyone. Join some of the brightest minds in the industry and let's start **Caring. Connecting. Growing together.**

What they might not have told you about corporate accounting at school.

In a corporate accountant role on our team, you will find we have a focus on work-life balance, health, schedule predictability and growth.

Early Careers: Our Early Careers program enables you to network across the enterprise through cohort activities and trainings. This includes our three-day Ignition conference for all Early Careers hires.

Improving health care outcomes: We improve the lives of millions of people each year. Accounting here goes beyond the spreadsheets, the insights you bring help make health care work better for everyone.

Career growth: We have more than 440,000 employees, many of which have been with the enterprise for five or more years. Our extensive family of businesses will provide you with ongoing opportunities to make a difference with accounting in: behavioral health, pharmacy, Commercial/Medicare/Medicaid/Global, technology, research and consulting.

Accounting: Work on a project basis in a diverse set of accounting roles: GAAP accounting, internal audit, tax, statutory reporting and treasury.
